When luxury becomes a neighborhood experience

Brick Hotel Boutique offers to you the opportunity to enjoy Mexico City from the very inside and relive a glorious past with today's fresh and invigorating eyes. Brick is a Boutique Hotel erected in one of the most vibrating neighborhoods in Mexico City, Colonia Roma, where this grand English-style country house from the early 1900s has been carefully restored and renewed on one of the most iconic streets in la Roma. With both style and taste, Brick has successfully combined features from the 1900s catching our attention on its architecture and avant-garde amenities while surrounding us in a comfy and well thought atmosphere to make guests feel at home.
